

# The Path™

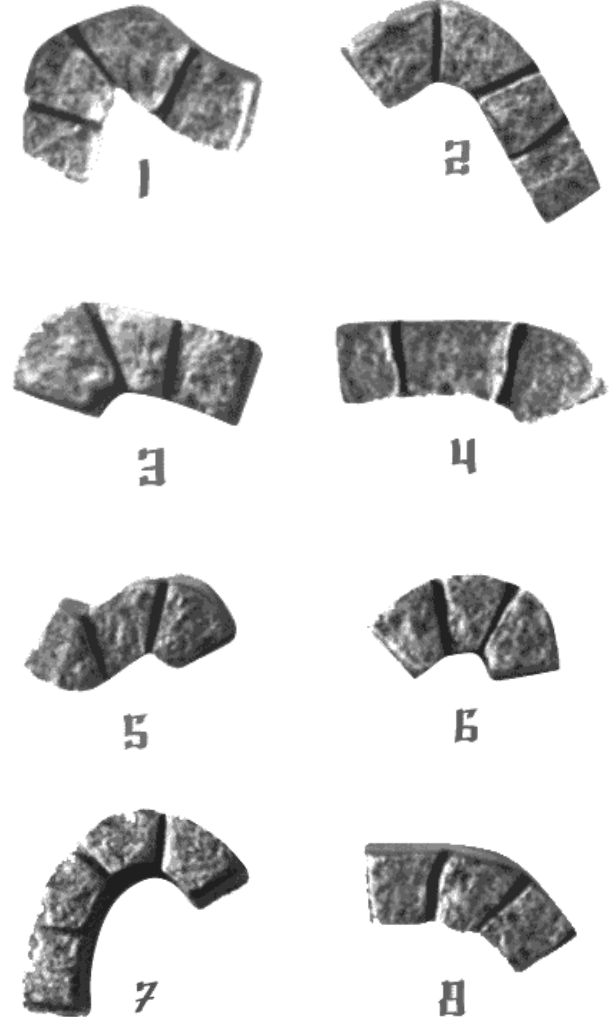

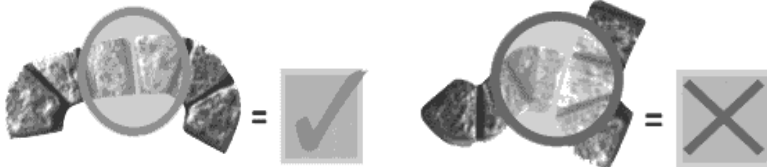

A thought-provoking puzzle.

THE  
PATH™

Position the red gates into the framed playing area.

Starting with the first 4 puzzle playing pieces (numbered 1, 2, 3 and 4), create a path which leads from one gate platform to the other on the interior of the wooden frame playing area. The path pieces must connect face to face.

Once achieved, add piece number 5 into play. There are 8 pieces in total. The more pieces added, the more difficult the puzzle. Be careful not to be led down the wrong path!

*Family Games America FGA Inc. takes pride in manufacturing high quality games and puzzles using natural materials. Please keep in mind that natural fibers have a tendency to react to variances in global temperatures and conditions. Differing humidity levels may cause wood to swell or shrink, thereby causing pieces to loosen, tighten, or puzzle mechanisms to block temporarily.*

*Please use a drop of carpenter's glue to reattach any loose pieces, and use patience for tight or blocked pieces. Thank you.*
