

We invite you to experience the natural harmony between ever-changing power strategies & the precision of flow and movement.

**FINDING THE WAY**

To be the first player to glide your 4 same color river stones into winning positions.

**THE PATH OF KNOWLEDGE**

Place the 8 stones on the playing surface as shown (IMAGE 1). Decide who will play first.

In turn, glide one of your stones in any direction, until it reaches the end of its limitations or until it reaches another stone.

NOTE: YOU MAY NOT STOP YOUR STONE MID STREAM. IT MAY NOT BE MOVED 1 SPACE IF 2 OR EVEN 3 SPACES ARE OPEN TO IT. YOU MAY NOT JUMP (OR SKIP) ANY OTHER STONE NOR MOVE ONTO AN OCCUPIED SPACE.

**FOCUSING POWER**

Movement of the stones continues until 4 of the same color stones are aligned in

any of the following ways:

- a horizontal or vertical straight line using 4 same color stones (2).
- a same color stone in each of the 4 corners (3).
- a square of 4 same color stones anywhere on the board (4).

NOTE: DO NOT SURROUND A FRIEND'S STONE WITH 3 OF YOUR STONES OR THE GAME IS CONCLUDED FOR YOU. TAKE TIME TO CONSIDER CAREFULLY BEFORE EACH MOVE YOU MAKE.
