

THANK YOU FOR PURCHASING YOUR FAMILY GAMES INC. PRODUCT. WE STRIVE TO ENSURE HIGH QUALITY DURABLE PRODUCTS HOWEVER, DIFFERING HUMIDITY LEVELS MAY CAUSE WOOD TO SWELL OR SHRINK, THEREBY CAUSING PIECES TO LOOSEN OR TIGHTEN, AND PUZZLE MECHANISMS TO BLOCK TEMPORARILY. WE ENCOURAGE YOU TO USE A DROP OF CARPENTER'S GLUE TO REATTACH ANY LOOSE PIECES, AND USE PATIENCE FOR TIGHT OR BLOCKED PIECES.

Broken line = position with balls. Solid line = position without balls.

TO INSTALL THE GOLF BALLS: It is important to be precise and gentle when executing the following movements. NOTE: LISTEN FOR THE PINS TO DROP!

- 1 • Place Tee J in the top hole. Position Ball A.
- 2 • Pull Tee J tightly up against Ball A. Holding firmly, turn the puzzle upside down until the pin drops.
NOTE: SLIGHT FORCE MAY BE REQUIRED. BALL A IS NOW LOCKED INTO POSITION.
- 3 • Keeping the puzzle upside down, place Tee K in the middle hole.
- 4 • Turn the puzzle upright, push Tee K in, and place Ball B into position.
- 5 • Pull Tee K tightly up against Ball B and turn the puzzle upside down until the pin drops.
NOTE: SLIGHT FORCE MAY BE REQUIRED. BALL B IS NOW LOCKED INTO POSITION.
- 6 • Keeping the puzzle upside down, push Tee L into the remaining hole as far as it will go. Return the puzzle to its upright position.
- 7 • Holding, not pushing Tee L in place, slowly tilt the puzzle to the left or to the right so that it is horizontal. Do not pass the horizontal position when tilting. (Diagram B) Shake gently and return the puzzle to its upright vertical position. (Diagram A)
NOTE: GUESSING WHICH WAY TO TILT IT IS THE KEY TO THE SOLUTION!
- 8 • With the balls facing you, tilt the puzzle towards you so that the balls are parallel to the ground. (Diagram C) Do not tilt more than parallel.
- 9 • Return the puzzle to its upright vertical position and push in Tee L. Place Ball C into position. Pull Tee L up against Ball C and turn the puzzle upside down. Shake gently and return to its upright position, locking Ball C into place.

TO REMOVE THE GOLF BALLS: Again, it is important to be precise and gentle when executing the following steps. It requires patience and skill to solve it on your first try. So don't get tee'd off, keep trying.

- 1 • Hold the puzzle in an upright vertical position so that the front of the puzzle, or balls, are facing you. (Diagram A)
- 2 • Slowly tilt the puzzle to the left or to the right so that it is horizontal. Do not pass the horizontal position when tilting. (Diagram B) Shake gently and return the puzzle to its upright vertical position. (Diagram A)
NOTE: GUESSING WHICH WAY TO TILT IT IS THE KEY TO THE SOLUTION!
- 3 • With the balls still facing you, tilt the puzzle towards you so that the balls are parallel to the ground. (Diagram C) Do not tilt more than parallel. Return the puzzle to its upright vertical position.
- 4 • Jiggle and push in Tee L to release Ball C. NOTE: DO NOT FORCE THE TEE. IF IT DOES NOT PUSH IN EASILY, REPEAT STEPS 1 THROUGH 3.
- 5 • Remove Tee L from the hole. Jiggle and push in Tee K to remove Ball B. Repeat this step to remove Tee J and Ball A.
