301- 501

The most popular dart game is where each player starts with 301 (or 401, 501 etc.) points. At the end of each player's turn, the sum of the three darts thrown is subtracted from the player's score. The first player to reach exactly zero, wins.

ROUND THE CLOCK

Players try to hit numbers 1 through 20 in sequence.
Double and triple zones are treated the same as a single.

EXECUTIVE DECISION

Sit back, prop up your feet, and throw the dart.
Decision making has never been easier... or more fun!
