

Flippit™ English

Using jumbo alphabet cards and a knack for flipping, children earn points by spelling words. Choose any word you want to spell, from the top of your head or from your school spelling list. Find the matching letter cards that spell the word from the deck of cards. Shuffle the selected cards, then lay them face down in a row. The cards are now flipped and repositioned, much like the game of solitaire. The more cards you can flip before getting stuck, the more points you win!

To learn how easy it is to play, let's try to spell FROG, following the images for guidance.

- 1• Find the 4 matching letter cards in the deck that spell the word frog; an F, an R, an O, and a G.

- 2• Shuffle the 4 cards and lay them FACE DOWN as shown.

- 3• Pick any one of the 4 cards and Flippit™ over. Let's say you flip over the 2nd card and the R is revealed. Because the R is already in its correct spelling position, it cannot be repositioned so your turn is over. In this case, you receive 1 point and the cards are passed to the next player. If you are playing alone, reshuffle the cards and try again!

3

4• But let's say you flip over the 2nd card and the F is revealed. Then you would place the F card ON TOP OF, and FACE UP in its correct position when spelling the word FROG.

4

5• The card UNDER the F is then flipped and moved to its proper position when spelling the word FROG. Continue flipping and repositioning the letter cards until you cannot position a card on top of a face down card, or until you complete the word FROG.

5

Points are tallied for each correctly positioned letter card before passing the same cards to the next player. Each player has a turn at spelling the word **FROG**. At the end of each round, a new word is chosen and **Flippit™** fun begins all over again!

WILD CARDS

Use this card to replace any missing letter, such as an **L** in lollipop!
