

The Preposterous Puzzle™

As you can see, the puzzle is solved simply by gliding the pieces into new positions; not one piece is flipped over!

FGA Inc. takes pride in manufacturing high quality games and puzzles using natural materials. Please keep in mind that natural fibers have a tendency to react to variances in global temperatures and conditions. Differing humidity levels may cause wood to swell or shrink, thereby causing pieces to loosen, tighten, or puzzle mechanisms to block temporarily.
