the enigmatic temple™

Historical figures, events and cultures have all left us clues to secrets, treasures and myths. Passed on by a chosen few who have succeeded in masking the secrets, it is now time to follow the clues and attempt to uncover their mysteries.

Although long abandoned, ancient temples continue to be discovered around the world. Advanced knowledge of mathematics, astronomy and cosmology among these civilizations is repeatedly reflected in their design and alignment. There may be more to these temples than determined to date - they may reflect solstice, calendar and universal knowledge still unknown to the modern world. Are the clues and knowledge meant to be indecipherable?

Welcome to your journey through 7 unique puzzles. Venture the trail and uncover the clues and, possibly, solve the mystery.

According to "Legend", there is but one way to explore this sacred site. Sequestered within the temple walls are blueprints needed to interpret the mystic "Pillars of Atlantis™".

This movement is present among
all Sacred Myths and Legends™.

Family Games America FGA Inc. takes pride in manufacturing high quality games and puzzles using natural materials. Please keep in mind that natural fibers have a tendency to react to variances in global temperatures and conditions. Differing humidity levels may cause wood to swell or shrink, thereby causing pieces to loosen, tighten, or puzzle mechanisms to block temporarily. Please use a drop of carpenter's glue to reattach any loose pieces, and use patience for tight or blocked pieces. Thank you.
