It is recommended to start with the easier puzzles, as this will help build the logic skills needed to solve the harder ones.

How to play Tantrix™ Match

- 1) Place a puzzle card in the tray. Each card shows some spaces already filled in and some left blank.
- 2) Find the EXACT tiles depicted on the card and cover each with the same real tile, in the same orientation!
- 3) Before filling in the rest of the tiles, check the objective of the puzzle.

All touching tiles must match in color.

A continuous line of one color must pass through all the tiles.

A continuous line of one color must pass through all of the tiles and form a loop (a closed circuit).

Whatever the objective, all touching links must match in color!

- 4) Fit the remaining tiles into the empty spaces to meet the objective of the card. Remember to keep the pre-placed tiles in their correct position and orientation at all times!
