

Winning: Play continues until each player has tried to guess 4 - 6 job cards. Correct cards are counted and the highest score wins.

Alternative Play: For 2+ players. Player 1 gives the hints and the other players try to be the first to guess the job and receive the card as one point.

The Grown-Up Game

#TV7203

Includes: 50 Job cards.

Object: Guess the job on the card with the help of 6 hints.

Game Preparation: Each player chooses a card from the deck without peeking. Decide who plays first. Play proceeds to the right.

Game Play: Player 1 asks Player 2 "What do I need to do my job?" Player 2 looks at the job card they chose and

gives one clue. If 'Bricklayer' is the job, 'cement' is a good hint. No part of the job word may be used as a hint. Player 1 has one guess; if correct, they take the card as one point and it is Player 2's turn.

If they cannot guess correctly, the question is repeated "What do I need..." Player 2 gives another hint. If Player 1 cannot guess the job after six hints, they receive 0 points and the job card is put at the bottom of the deck.
