

Team Play: Team Leader 1 takes the top card and sings the song in their animal voice while their team members yell out songs. If correct, the card is put aside as one point and the next card is sung. At the end of one minute, correct song cards are counted and put aside. Team 2 plays next. The team with the highest score wins.

Moo-Toon Game

#TV7205

Includes: 6 animal cards - 44 song cards.

Object: Guess the most songs sung in animal voices!

Game Preparation: Each player chooses an animal card; that is the only voice you can sing in. Stack the 44 song cards face-down. Decide who plays first. Play proceeds to the right.

Game Play: In turn, Player 1 takes the top song card and sings it aloud in their animal voice. The first to guess the song receives the card as one point. Player 2 does the same.

Note: If the singer does not know the song, the card is put at the bottom of the stack and the next card is sung.

Winning: When all the songs are sung, the player with the highest score wins.
